Essensium supports the DIGITAL MASTERS.

Leuven, Belgium, 16th September 2008 – *Essensium N.V. went back to school to give testimonial to the undergraduate students of the huge potential of the ICT business.*

On September 16th Agoria, the Belgian association of ICT companies, organized the Digital Masters, a contest to sensibilise undergraduates students for the large potential of ICT. Essensium presented this contest to the Vrij Handels- en Technisch Instituut in Dendermonde and the Vrije Technische School in Leuven. The audience of more than 80 young students was introduced to the activities of Essensium and to the unlimited possibilities of the Information and Communication Technologies.

The young students were made aware of the impact of ICT on the daily life and of its drastic evolution in the last decades, and their interest is raised for participating in this fascinating world for the future.

About Essensium NV

Essensium is a fabless semiconductor company located in Leuven, Belgium, that provides system-on-chip products and design services to original equipment manufacturers, design houses, and ASSP suppliers. Essensium was created as a spin-off of the nanotechnology research center IMEC in Leuven. Essensium's skills and technology focus on custom silicon for portable, wireless, and low power applications. In addition, Essensium is also working towards the development of standard products for wireless sensor networks and active RFID applications. For more information on Essensium, please visit <http://www.essensium.com>.
